

- **Calmly and smoothly access the pistol**
- **Ensure you have a good grip**
- **Pull the pistol straight up**
- **Maintain workspace with the off gun hand**

- **Only index the trigger if the threat is positively identified**
- **Only index the trigger after the pistol is on the threat**

- **First defensive shots can be made from the one-handed close combat position**
- **Use the offhand to defend yourself**

- **Pointing guns at friends and family ruins friendships, always be muzzle aware**
- **Only drive the gun out if you determine you have the space and time**

DRIVE (PUNCH) TO FULL EXT

- **Straight line drive**
- **Pistol stays on the threat**
- **Bring the pistol up into the line of sight**

THE DRAW

TOUCH & DRIVE

Touch the pistol & drive the pistol into the holster setting a firm grip high on the back strap

PULL

Pull the pistol straight up keeping your primary safety (trigger finger) along the frame

ROTATE

Rotate the pistol onto target keeping the elbow tucked ready for a close combat shot.

Keep offhand ready for defense

When on target and ready to shoot index the trigger

SECONDARY TOUCH POINT

Move the gun to the center of the chest and into the off hand.
